

## Cedar Hill Green Slope

Located between Berger, Goshen and Grimley Roads

### Cedar Hill Open Green Space Trail

The Cedar Hill open space, located within the Cedar Hill development, provides a short walk through the woods on informal pathways connecting Grimley, Berger and Goshen Roads. A bench was recently added to provide a quiet place to sit and relax. The area supports a variety of wildlife and native wildflower species. The trail is used by many residents to walk (often with pets), play off-street and experience nature within the densely populated townhome community.

Additional trail improvements, removal of invasive plants and the addition of a picnic table are planned for this location.

Park Amenities:

- Natural walking area on informal rough trail
- Nice vista from high point on trail
- View native wild flowers
- Wildlife habitat – fox, deer, groundhogs and a large variety of birds are seen here

**Virginia Bluebells (*Mertensia virginica*) Found on Cedar Hill**
